### ***EXHAUST SYSTEM APPEARANCE CHARACTERISTICS (NON-WARRANTABLE):***

ROUSH uses a 409-stainless steel alloy to produce our exhaust system. This is a commonly used alloy in modern OEM exhaust systems. 409SS is selected specifically for exhaust systems to combat oxidation and corrosion in harsh environments (exposure to water, salt, road grime, engine exhaust by-products, etc.) while dealing with the extreme thermal cycles of automotive exhaust systems. As exhaust systems are located beneath the vehicle, 409 is not considered an appearance grade of stainless steel. As such, once exposed to the environment and multiple heating cycles, 409SS will turn a gold, reddish-brown color and will also develop a light surface rust. It is important to note that this condition is considered normal, does not adversely affect material function and is not warrantable. A bright polished finish can be restored through the use of cleaning and scouring pads and/or polishing compounds, although this level of maintenance would need to be done on an ongoing basis if this level of luster is desired. It is also important to note that areas around welded joints will exhibit additional discoloration and localized corrosion due to their exposure to extreme heat during the welding process. This is also considered normal and does not need to be cause for concern.

### ***EXHAUST SYSTEM APPEARANCE CHARACTERISTICS (NON-WARRANTABLE):***

ROUSH uses a 409-stainless steel alloy to produce our exhaust system. This is a commonly used alloy in modern OEM exhaust systems. 409SS is selected specifically for exhaust systems to combat oxidation and corrosion in harsh environments (exposure to water, salt, road grime, engine exhaust by-products, etc.) while dealing with the extreme thermal cycles of automotive exhaust systems. As exhaust systems are located beneath the vehicle, 409 is not considered an appearance grade of stainless steel. As such, once exposed to the environment and multiple heating cycles, 409SS will turn a gold, reddish-brown color and will also develop a light surface rust. It is important to note that this condition is considered normal, does not adversely affect material function and is not warrantable. A bright polished finish can be restored through the use of cleaning and scouring pads and/or polishing compounds, although this level of maintenance would need to be done on an ongoing basis if this level of luster is desired. It is also important to note that areas around welded joints will exhibit additional discoloration and localized corrosion due to their exposure to extreme heat during the welding process. This is also considered normal and does not need to be cause for concern.

### **DID YOU KNOW?**

- Modifying your vehicle may void your Limited Powertrain Warranty? Please consult ROUSH warranty **prior to** making any modifications.
- Altering wheel and/or tire size beyond factory allowable specifications is **not** recommended. Doing so may cause your vehicle to experience a lack of performance and/or check engine light(s). Ensuring the correct tire size (rev/mile) has been accounted for inside the PCM/BCM is critical to normal vehicle function. This information must be updated using proper service tools by a certified installer/dealer prior to driving any vehicle with an altered wheel and/or tire combination.
- Aftermarket clutches and/or flywheels are not recommended with Roush calibrations. Choosing to do so may require a custom, non-Roush calibration at your expense and it will void your Limited Powertrain Warranty.
- Within 30 days of Supercharger or Performance Pac installation, your warranty card must be sent to Roush for vehicle registration. Warranty is only applicable to original purchaser of the kit and is non-transferrable.
- Regular Ford service intervals and fluids are recommended after installation of the Supercharger or Performance Pac. Make sure you use the correct engine oil for your application.
  - Performance Pac 3.5L Ecoboost F-150s, Raptor and base, along with 2018+ Supercharged 5.0L Mustangs and F-150s require 5W-50 engine oil.

Your completed form can be emailed to [RPPCUSTOMERSERVICE@ROUSH.COM](mailto:RPPCUSTOMERSERVICE@ROUSH.COM) or mailed to the address on the form (page 4 of this document). #### **WHO IS COVERED**

ROUSH's warranty obligations for the Performance Pac®/ROUSHcharger®/Supercharger Kit(s) identified above is limited to the original owner of the vehicle in which the Performance Pac®/ROUSHcharger®/Supercharger Kit(s) is installed and who has submitted proper documentation in order to activate this warranty. This warranty is not transferable to a second owner and is secondary to all other warranties and manufacturers' recall that may be in effect. The term "Performance Pac®/ROUSHcharger®/Supercharger Kit(s)" as used in this warranty applies to each Performance Pac®/ROUSHcharger®/Supercharger identified above.

#### **WARRANTY PERIOD**

The Warranty Period for all kits listed above is as follows:

- 3 years or 36,000 miles from the vehicle's original in-service date as determined by Ford dealer OASIS (On-Line Service Information System) report.

#### **WARRANTY COVERAGE**

When a Performance Pac®/ROUSHcharger®/Supercharger Kit(s) purchased from an Authorized ROUSH Dealer is correctly and completely installed by a certified Ford automotive technician or automotive service technician certified by the Institute for Automotive Service Excellence (ASE) on an eligible, legally registered and licensed vehicle with an operational odometer, ROUSH will cover defects in materials and workmanship during the Warranty Period, as solely determined by us.

Below are those vehicle components covered and not covered under this warranty:

- **ENGINE COMPONENTS**

**COVERED:** Pistons, piston rings, piston pins, crankshaft and bearings, connecting rods and bearings, camshafts and bearings, timing chain and gears, intake/exhaust valves and seals, valve springs, oil pump, push rods, rocker arms, rocker arm shafts, and lifters. If a failure of any of these parts damages either the engine block or cylinder heads, a remanufactured long block assembly will be provided up to the maximum coverage of \$7500.00.

**NON-COVERED:** Those engine components specifically not listed including, but not limited to, parts, filters, etc., that are required to be replaced as a part of the vehicle's normal maintenance schedule are not covered under this warranty.

- **TRANSMISSION COMPONENTS**

**COVERED:** Torque converter, oil pump, governor, bands, drums, planetaries, shaft(s), sprag(s), bearings, shift rail(s), fork(s), and synchronizers.

**NON-COVERED:** All-wheel drive vehicles are excluded from transmission coverages under this Warranty. Failure of related parts external to the transmission that cause a transmission claim, including but not limited to, transmission coolers, levers, controls, etc., void coverage under this warranty.

- **REAR AXLE COMPONENTS**

**COVERED:** Rear axle, ring gear, drive pinion, pinion shaft, side gears, bearings, bearing cap, washers, slinger, axle shaft, housing and housing cover.

- **TRANSFER CASE COMPONENTS**

**COVERED:** All internally lubricated parts of the transfer case are covered under this warranty.

**NON-COVERED:** The transfer case housing is not covered under this warranty.

When you present us with a valid, properly documented warranty claim during the Warranty Period, ROUSH will replace the defective component(s) covered by this warranty or, at our option and sole discretion, refund the purchase price you paid for the particular Performance Pac®/ROUSHcharger®/Supercharger Kit(s) purchased. We reserve the right to improve or modify the Performance Pac®/ROUSHcharger®/Supercharger Kit(s) without assuming any obligation to update or replace any previously manufactured or sold Performance Pac®/ROUSHcharger®/Supercharger Kit(s).

**OUR TOTAL LIABILITY PER COVERED VEHICLE UNDER THIS WARRANTY IS LIMITED TO \$11,500.00 (AGGREGATE). EACH COVERED COMPONENT HAS ITS OWN AGGREGATE VALUE WHICH WHEN COMBINED EQUALS THE TOTAL LIABILITY PER VEHICLE. THE ENGINE IS COVERED FOR \$7500.00, \$2000.00 PER TRANSMISSION, AND \$1000.00 PER REAR AXLE. VEHICLES EQUIPPED WITH A TRANSFER CASE RECEIVE \$1,000.00 COVERAGE ON THESE COMPONENTS. VEHICLES WITHOUT A TRANSFER CASE FORFEIT ANY CASH REFUNDS OR REPAIR CREDITS. THESE AMOUNTS CANNOT BE COMBINED TOGETHER TO AID IN THE REPAIR OF ANOTHER COVERED COMPONENT. IN THE RARE CASE WHEN THE REPAIR COST EXCEEDS THE ACTUAL CASH VALUE OF THE VEHICLE, WE WILL REFUND THE PURCHASE PRICE OF THE PERFORMANCE PAC®/ROUSHCHARGER®/SUPERCHARGER KIT(S) ONCE THE COMPLETE KIT IS RETURNED PREPAID TO US.**

A replacement Performance Pac®/ROUSHcharger®/Supercharger Kit(s) or component(s) that has been installed in accordance with our instructions, assumes the remaining warranty of the original replaced. If a Performance Pac®/ROUSHcharger®/Supercharger Kit(s) or any of its component(s) is exchanged, the replacement becomes your property and the returned Performance Pac®/ROUSHcharger®/Supercharger Kit(s) or component(s) becomes our property.

- To obtain warranty service on your vehicle upfitted with the Performance Pac®/ROUSHcharger®/Supercharger Kit(s), the vehicle must have an operational odometer and have maintenance services performed at the intervals as stated in the Ford Motor Company's vehicle maintenance schedule, either at a Ford dealership or commercial maintenance center. You **must** present these invoices in the unlikely event of a warranty claim; therefore, we strongly recommend that you retain them for your records.
- You **must** submit copies of the following documents with your warranty claim: (a) your warranty registration form, (b) the receipt showing installation of the ROUSHcharger®/Supercharger by a certified Ford Automotive Technician or ASE automotive service technician, and (c) all requested vehicle maintenance records.
